## Meeting Program

### **Threaded Tops**

Ron Williams has just returned from Arrowmont where, among other things, he learned how to create boxes with threaded tops. He made the investment in the threading tool and he's itching to show us how to do it. Come and see him put the new club lathe through it's paces.

## Announcements

### **Election of Officers**

This is the month we will elect new officers for the club. It's time for you to voice your opinion, or better yet, volunteer. We need everyone's input to make the club what we want it to be.

### **The new lathe is here**

The new Powermatic 3520B arrived last Friday afternoon and it is set up and ready to use for the May 10<sup>th</sup> meeting. This is a great machine and it will make life much easier for our demonstrators.
